AIR and AVIONICS SYSTEMS SEMINAR OUTLINES

If you decided to be our sponsor, shortly introduce your company info & activities and send your company <u>logo</u> **please.**

Afterwards, be sure to send your high-resolution company <u>logo</u> **a.s.a.p. as well. This logo will be used to design our seminar poster, backdrop at the entrance and the face of the seminar bag, etc.**

For seamless coordination, providing at least two of your POC contact info from your company for the seminar a.s.a.p. is very important.

Check the seminar website regularly to get the updated seminar status. In the meantime, we will inform and guide you for the milestones.

At the beginning, we need your presentation title(s), name & title of your speaker(s) as soon as possible. We need that information to draft the poster and the seminar program.

Please note the Key Dates for the related activities and documents with their due dates, and the Important Issues of our seminar as headlined on the seminar web page.

Participation as audience / visitor is free of charge only if registered via our web page.

Please register via our website correctly. Every participant / visitor including the speakers and exhibitors must be registered as well. Name cards will be prepared by using that information and it is important for security as well.

Adding our seminar announcement into your marketing activities (nationally / internationally) and announcing it via your web page will be very helpful for our seminar publicity and its success.

Greetings.

Air-Avionics Systems Seminar Organization
